

Requirements Relating To COVID-19
Netflix Self-Managed Productions In United States/Canada

We recognize that many people are nervous about the spread of the Coronavirus (COVID-19). One of the best ways to protect ourselves, each other, and those who are more vulnerable is to engage in preventative measures.

To that end, please review and follow the below requirements:

- Follow all hygiene and safety guidance for the production, including:
 - Cover your mouth and nose with a tissue or your sleeve (not your hands) when coughing or sneezing.
 - Avoid touching your eyes, nose, and mouth with unwashed hands.
 - Regularly and thoroughly clean your hands with an alcohol-based hand rub (containing at least 60-95% alcohol) or wash them with soap and water (for at least 20 seconds). Soap and water should be used (in place of the hand rub) if hands are visibly dirty.

- If you feel ill, please let us know. Stay home from work until you have a medical all clear (24 hours symptom free without any medication to control fever or other symptoms, or for a minimum of 14 days, depending on current public health guidance). Currently, a doctor's note is not required.

- If you have a family member who feels ill, please let us know. Stay home from work until the family member has a medical all clear (24 hours symptom free without any medication to control fever or other symptoms, or for a minimum of 14 days, depending on current public health guidance) or longer if you get ill while home with the family member, consistent with current public health guidance.

- If, in the last 14 days, you have traveled to any of the [warning level 3](#) countries (e.g., Italy, South Korea, China and Iran) or [warning level 2](#) countries (e.g., Japan) or areas where there is community spread of COVID-19, please let us know. Stay home and monitor your health for 14 days after your return from the travel before returning to work (or, if it is different, follow the current public health guidance). Updated guidance on what are COVID-19 warning level 3 and warning level 2 countries can be found here: <https://wwwnc.cdc.gov/travel/notices>

- Follow the CDC's guidance about when to call your health care provider. The CDC is recommending that you call your health provider if you develop symptoms, and have been in close contact with a person known to have COVID-19 OR have recently traveled from an area with widespread or ongoing community spread of COVID-19.
(Find updated CDC guidance here:
<https://www.cdc.gov/coronavirus/2019-ncov/about/symptoms.html>)

- Please let your Netflix Production HR know if you are diagnosed with COVID-19 at any time during production or within 14 days after your role on production ends. Production HR can be reached at: (844) 222-1739 / www.productionhotline.com
